

# Heat and Drought in Australia

Forecast temperatures next 10 days.

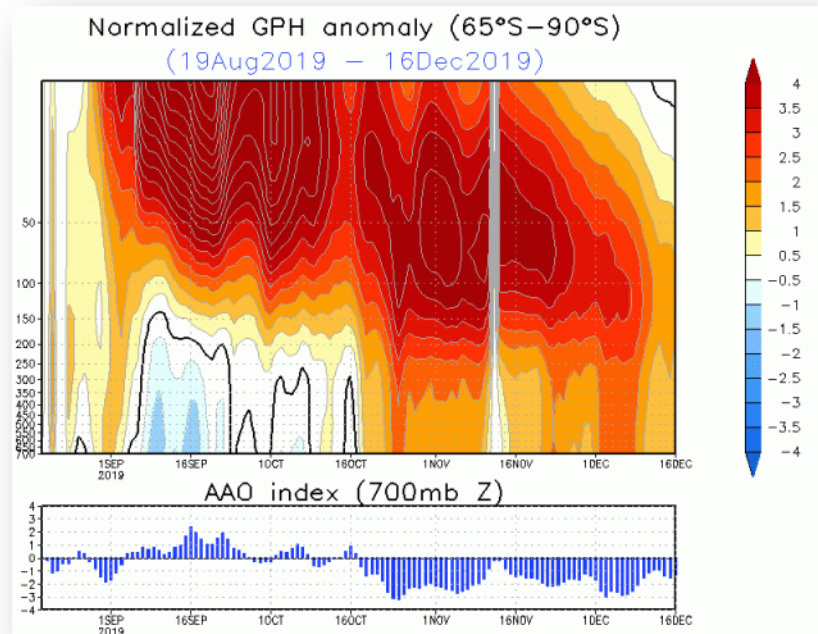

The precipitation anomalies the last 120 days:

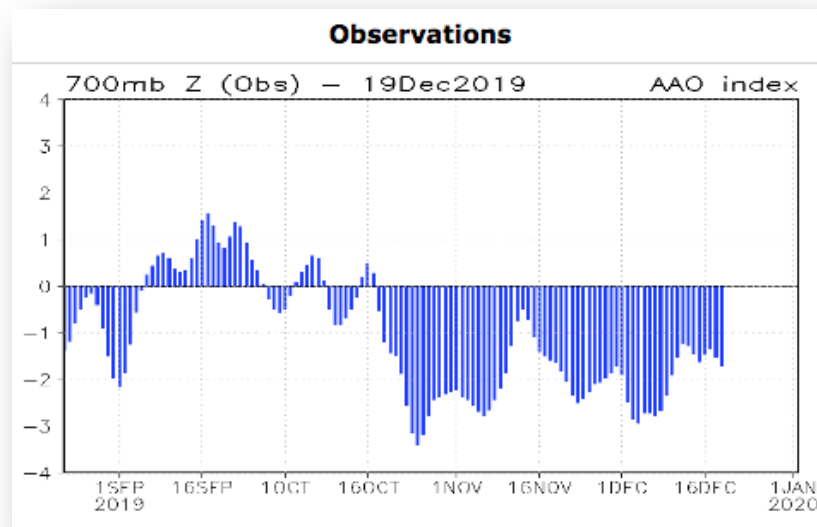

## AAO 65S-90S Time/Height Section

It shows warming in the high troposphere and stratosphere build down as the southern spring advances.

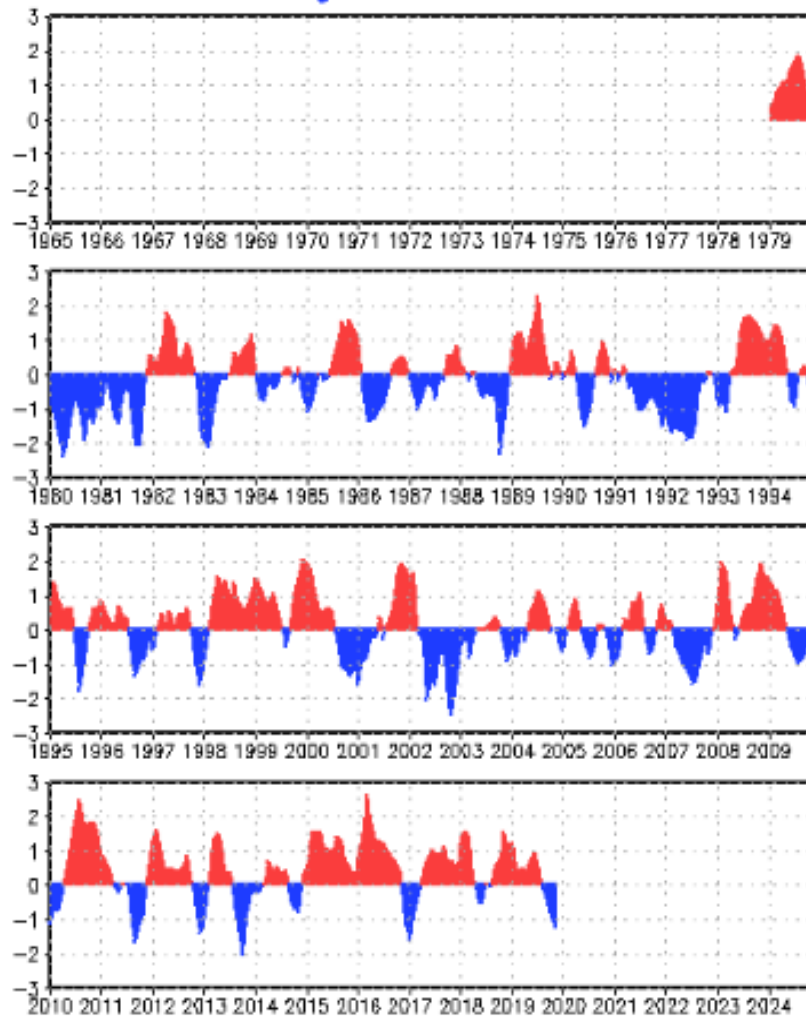

See the AAO at 700mb dive starting in October in response.

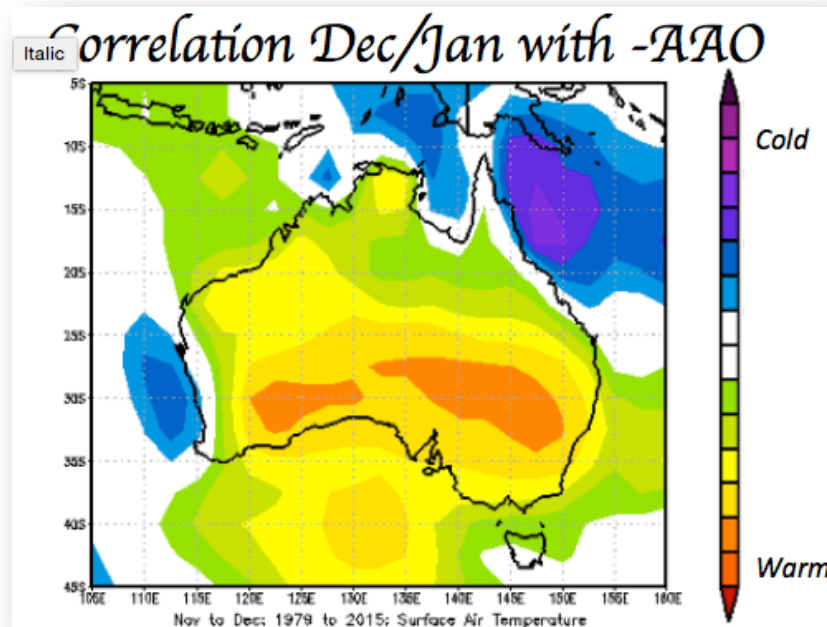

A negative AAO is not unusual. Some episodes in the past have lasted for multiple years.

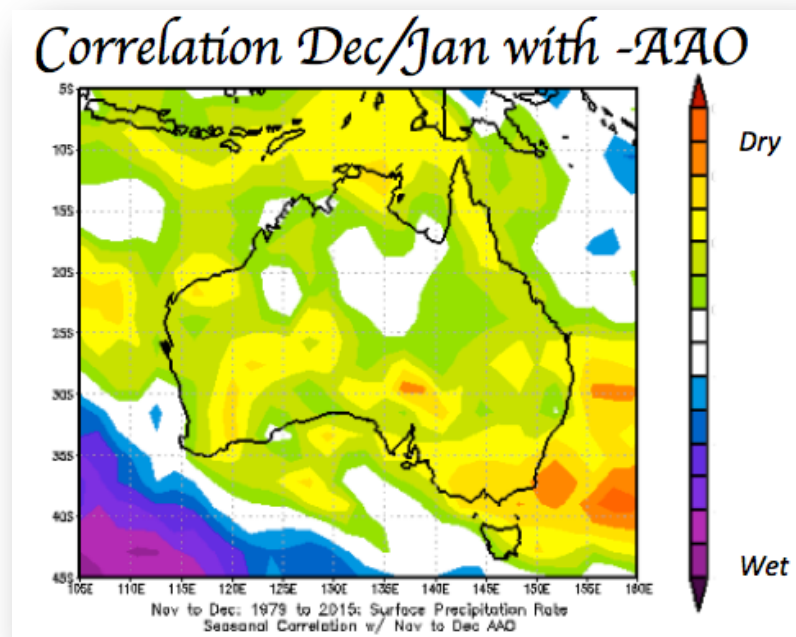

Standardized 3-Month Running Mean AAO Index  
Through November 2019

Temperature correlation with -AAO this time of year.

Precipitation Anomalies correlation with -AAO

Expect the media to jump on the heat and blame CO<sub>2</sub>.
