And from the Internet Skeptic

Hey everyone, “Ridin the Wave” with Dave has a post presentation interview of the recent Global Warming Presentation. It is nice to see people in the media are finally starting to take on this issue, and address the real science. If you are a member of a civic organization, Jym has a great presentation debunking GW, and of course I am always willing to give my presentation as well. For those of you who don’t know who Jym Ganahl is, he is the Channel 4 Meteorologist.

Jym Ganahl and Bob Wagner post presentation interview:
